Front-End :	HTML5 , CSS3 , Bootstrap , familiar with Java Script .
Soft Skills :	Willingness to Learn & Adapt , Active Listening ,Team Collaboration TimeManagent

Projects

Efficient and Privacy-Preserving Online Fingerprint Authentication   Dec 2024 – Feb 2025

To design and implement a secure fingerprint-based authentication system that ensures data privacy, efficiency,andaccuracy while providing a robust login mechanism for online platforms.

Fingerprint Authentication – Uses fingerprint images as the primary authentication method instead of traditional passwords.

Privacy-Preserving Mechanism – Fingerprint data is encrypted and stored securely to prevent misuse or unauthorized access.

Mini-Projects

BMI - Calculator

Developed a lightweight tool to compute Body Mass Index and display health categories based on input values.

Created with HTML, CSS, and JavaScript, featuring a clean and responsive user interface.

Education

Bachelor of Science. Information Technology

Maharani Arts' & Science Womens College   2022 – 2025

Bharathiyar University

CGPA: 85.86 %
